

June 8, 2005

ALL INCUMBENT LOCAL EXCHANGE CARRIERS:

On May 24, 2005 the Arkansas Public Service Commission's Order No. 2 in Docket 05-049-U approved the following items requested by the ILEC Joint Application filed on May 4:

- The Rural Saver Optional Calling Plan (RSOCP) should be made available in exchanges having 4,000 or less total access lines.
- The monthly charge for RSOCP should be reduced from \$2.50 to \$1.49.
- ILECs should be allowed to recover one-time costs of implementing these changes.

Form RSOCP-1 has been revised to reflect that end-user charges may be calculated by multiplying the subscriber access lines by either \$2.50 or \$1.49 (whichever is applicable for the data month being reported) and to reference the allowance of one-time costs associated with these changes.

Please complete the enclosed RSOCP-3 form once your company has changed the RSOCP monthly rate to provide the effective date of the new rate for our files. The form should be faxed to (501)373-5529.

Call me on (501) 373-5903 or email me at [Lisa.Lake@sbc.com](mailto:Lisa.Lake@sbc.com) if you have any questions.

Sincerely,

Lisa Lake  
AICCLP / RSOCP Administrator
