

March 1, 2007

ALL INCUMBENT LOCAL EXCHANGE CARRIERS:

On October 23, 2006 a Joint Application was filed by ILECs in Docket No. 06-140-U requesting changes to the Rural Saver Optional Calling Plan (RSOCP). On December 5, 2006 the Arkansas Public Service Commission's Order No. 1 approved the following:

- The size of the exchange where the RSOCP should be made available was increased to 5,600 or less total access lines. (Previously available only to exchanges with 4,000 or less total access lines.)
- The monthly minutes of calling available under the RSOCP was increased from 120 to 240 minutes.
- Recovery by ILECs of one-time costs associated with implementation of these changes. (Includes costs of programming changes, bill inserts, and advertising.)

Form RSOCP-1 was recently revised to allow recovery of the one-time costs associated with these changes. Please include a description and supporting documentation of the costs when requesting reimbursement.

Please complete the enclosed RSOCP-3 form once your company has updated its tariff and made the necessary changes to increase the allowed minutes and add additional exchanges (if applicable). The form should be faxed to (501) 373-5529.

Call me on (501) 373-5903 or email me at Lisa.Lake@att.com if you have any questions.

Sincerely,

Lisa Lake
AICCLP / RSOCP Administrator
